KEYMACRO is a powerful, yet easy-to-use and efficient, keystrokes recorder with clipboard. KEYMACRO can record multiple keystrokes and copy the content of the clipboard to your desktop in one single operation. You can also insert your macros into a text or a HTML document, which can be saved and shared with others via email or any other means. Keystroke Records: Record keystrokes that you type in your own text editor, like Notepad, or just copy the content of the clipboard. Record multiple keystrokes Trace your entire window movements, or just a single keystroke. The macro recorder will be running in the background, so you will not be aware when it is recording. Note: The macro recorder is limited to only one clip per 5 seconds. Copy from Clipboard: As soon as you type in the text area, press Ctrl+C to copy it to the clipboard. Copy to Clipboard: As soon as you press Ctrl+C, you will see a menu with all possible operations that you can perform on the clipboard content. Delete to Clipboard: As soon as you press Ctrl+D, you will see a menu with all possible operations that you can perform on the clipboard content. Save: Save the macro text to a file. Save Macro to Clipboard: Save the macro text to the clipboard. Save as Macro File: Save the macro text to a file. Show Preview: Show the preview of the keystroke as you type it, to make sure it is accurate. Hide Pop-up: Hide the automatic menu window to make your recording session more efficient. Advanced Mode: In Advanced Mode, you can press Ctrl+Alt to toggle the Full Screen Mode. You can also remove the cursor from the recording area by pressing Alt+Shift+Esc. Keyboard Scaling: If the text area is too small for your keyboard, you can activate Keyboard Scaling to make the text area large enough. Import/Export: Import and Export keystrokes from other macro programs, including KEYMACRO, MICROSOFT MESSENGER and NOTEPAD. Requirements: Windows 7 or later 30 MB Disk Space Description: Euphoria PC Download Free is a PC tool that enables you to easily adjust the brightness and contrast settings of your display in both Windows and Mac.
